

Minetec Joins Ludlow Racing for 2007/08 Season

Minetec Communications has joined Ludlow Racing for their assault on the 2007/08 Late Model Pro Dirt Series. Minetec will provide major support behind the #2 Ludlow Racing Ford Fusion/ Rocket Chassis, to be piloted by Brad Ludlow. The sponsorship has bought a fresh outlook to the race team, and the high aspirations for next season.

With strong performances last Season and fast lap times, Brad Ludlow hopes that the new backing can provide the support needed to get the #2 running competitive and consistently. Brad's Rocket Chassis Ford is undergoing a major face lift and rebuild after the Warrior Chassis Chev that he was going to race this year, was sold recently to WA AMCA Champ Michael Holmes.

Both parties are excited with the new partnership and are looking forward to a strong and successful assault on the 2007/08 Pro Dirt Series.

Greg Anderson, the Managing Director of Minetec Communications, said "We are extremely excited to be part of the Ludlow Racing Team and have absolute confidence in Brads ability to deliver results.

Brad Ludlow is enthusiastic about next season and thinks the team can provide strong results, hopefully consistently. Brad stated, "I was quite surprised yet excited when Greg called about talking about the prospects of teaming up for next season. It is an honor to have such a high profile company like Minetec wanting to get behind me and help us compete on a full time basis again after several years of competing part time. When we were sponsored full time several years ago with the Ford Dealer Team, I was able to finish 2nd in 2002/03 and 3rd in 2003/04 in the Pro Dirt Series, I will be aiming to win the Series this year as I believe we will have a strong package with the #2 Ford Fusion and a very good crew along with Minetec Communications support."

With a fresh sponsor for the team, the car will have a base color of blue, with the graphic touches to be applied in house by Ludlow Racing Xtreme Graphix Nick Bishop.

More information on the team's preparation for the 2007/08 Late Model Pro Dirt series will be released at a later date.

Ends Release

Release by

Nick Bishop of Ludlow Racing

Last years, paint scheme on the #92 Chevrolet Warrior as raced by Brad Ludlow.
